

Source List for Terms

Tier 2 Academic Terms: Cognitive Verbs..... 4

Tier 3 Domain-Specific Terms: English Language Arts 26

Tier 3 Domain-Specific Terms: Mathematics 72

This document lists the source of each vocabulary term from the book *Vocabulary for the Common Core* (Marzano & Simms, 2013). For more information about these words, including descriptions, examples, recommended grade levels, an organization scheme that groups related words into teaching clusters, and more, please see the book.

As we explain in *Vocabulary for the Common Core*, this list is presented to teachers and administrators as a menu from which they can select the words most appropriate for the content taught in their classrooms and schools. *Vocabulary for the Common Core* also presents research supporting direct vocabulary instruction, a six-step process for vocabulary instruction, a complete explanation of how we selected and organized the terms in the book, and a process for selecting words to teach, which can be used by individual teachers or by school and district administrators to create classroom, school, and districtwide vocabulary programs.

As explained in *Vocabulary for the Common Core*, our lists include words from the Common Core State Standards (CCSS), *Building Background Knowledge for Academic Achievement* (Marzano, 2004), and *Designing and Teaching Learning Goals and Objectives* (Marzano, 2009) and are sorted using Beck, McKeown, and Kucan's (2002) Tier 1, 2, and 3 scheme. Tier 1 words are outside the scope of this work, Tier 2 words are limited to cognitive verbs found in the CCSS and listed in *Designing and Teaching Learning Goals and Objectives*, and Tier 3 words are those from the CCSS and *Building Background Knowledge*.

For Tier 2 words, we included all cognitive verbs from the CCSS and all cognitive verbs listed in *Designing and Teaching Learning Goals and Objectives*. For Tier 3 words, if a word was included in both the CCSS and *Building Background Knowledge*, we included it in our list. If a word was included in the CCSS only, we also included it in our list. If a word was included in the *Building Background Knowledge* list only, we used our judgment about whether to include it, exclude it, or modify it. For example, the term "card catalog" is included in the *Building Background Knowledge* list. However, most card catalogs are now obsolete, so we changed this term to "library catalog" and included it in our list.

In the following lists, the CCSS are referred to using the dot notation system (for example, W.K.1; 6.NS.A.1; HSN-RN.A.1). Words from *Building Background Knowledge for Academic Achievement* are denoted with the letters *BBK* and words from *Designing and Teaching Learning Goals and Objectives* are denoted by the letters *DTLGO*. Words that were identified in the Standards for Mathematical Practice (in the CCSS) are denoted with *MP*, words from the CCSS's glossary of mathematics terms are denoted with *G*, and words from the CCSS's English language arts college and career readiness anchor standards are denoted with *CCRA*. Additionally, we added several technology terms (such as *blog*) and numerical terms (such as *billion*) that we felt represented important vocabulary for students to know, even though they do not appear in the CCSS. These are denoted with *Tech* and *Num* in the following lists. The following table summarizes the coding used in this document.

Source Coding

Dot notation (W.K.1; 6.NS.A.1; HSN-RN.A.1)	Term from the CCSS grade-level standards
BBK	Term from <i>Building Background Knowledge for Academic Achievement</i>
DTLGO	Term from <i>Designing and Teaching Learning Goals and Objectives</i>
MP	Term from the CCSS Standards for Mathematical Practice
G	Term from the CCSS Glossary of Mathematics Terms
CCRA	Term from the CCSS ELA College and Career Readiness Anchor Standards
Tech	Technology term
Num	Number term
